IF A Lady's Testimony .- My attention was directed by younger branch of my family to a paragraph in the Tribune, headed Lane's French Shoes, which I immediately discovered to be a sicked deception, and meriting public scorn.

Myself and family were customers to old Mr. Lane, and after he are up business to his son that I am then be confirmed.

Styself and family were customers to old Mr. Laue, and after he give up business to his son; but I am free to confess that nothing but the polite attention of Mr. Alleu, together with the beauty of his fitting us at all times, would have induced us to have continued our biting us at all times, would have induced us to have continued our tistom at toat store. These accomptishments we thought Mr Lane's son never possessed. We afterwards tried his successor and proved to our entire satisfaction that he was as ignorant of the Ladies' Shoe lastness as he was of pointeness, and were gratified to learn that Mr. Allen was at J. B. Miller's, 142 Canal-street; there we all resort in our turn with pleasure, and there is no man we would prefer in the City making our Bosts and Shoes to Mr. Allen. Unsolicited and at my own expense.

Such is the four-sided Patent Metallic Ruzor Strop of Mr. Saunders, which readers may razor, however blant, ready for use in a few moments, without of or grandstone, and which we do not hesitate to pronounce tho mest complete thing of the kind we have seen at with.

[From Bell's Weekly Messager.]

Saunders's Patent Metallic Ruzor bladet and Ruzor Strop is one of the leet things of the kind that we have seen. This excellent Tablet combines the properties of both home and trop, requires no oil or other fluids, and is in itsuse extremely simple. It is most particularly recommended to gentlemen, who experience the meconvenience of a tender fee and a strop is early as a razer of examinating notice to the ender fee and a strop is early as a razer of examinating notice to the ender fee and a strop is early as a razer of examinating notice to the

I have several certificates of the great use and value of the Tablet Strop from scientific gentlemes, but that it may be more satisfactory to the public, I deem it right to insert the following from Dr. Griscom. Dr. Valentine Mott, and General James Tallimadge.

The undersigned have for some time made daily use of Georga Saunders: Improved Strop, we can freely testify to its value. The side which he calls the Metallic Tablet is, as far as we know, a thing of his own introduction in this country; it appears to be an excellest, convenient substitute for a hone, and operating on the same principle as steel does upon a table-knife, but with far greater smoothness and certainty; it saves the unpleasant necessity of oil or water, to easiet in whetting.
